

How to Find Youth Titles on BARD Mobile (version 2)

By Title or Author:

Go to **GET BOOKS** tab in your BARD Mobile App

Using the **SEARCH** option, enter search terms as described below into the text box.

- To search by author, type the last name or the full name of the author into the search box. Works best if you do last name, first name. Then select **AUTHOR** under "search by", then select the format you'd like; either AUDIO or BRAILLE. Then select **GO** to the right of the search text box. **Example:** Jamieson, Victoria
- To search by title, type the entire or partial title into the search box. Then choose **TITLE** under "search by". **Examples:** When Stars Are Scattered; The Cat in the Hat
- To search by item number, type the NLS item number into the search box. And select **KEYWORD** under "search by" (Note that some materials have the same item number but a different prefix, as they are available in multiple formats from different producers. Adding the prefix will limit the results.)

Example: DB104692, or leave off the DB and just search 104692

By Grade Level:

Using the **SEARCH** box, enter one of these terms as listed; use **ANNOTATION** under "search by". (Note that the search results number that displays at the top will go up as you scroll through the results. We have MORE than 50 titles for each search!)
