How to Assemble Your *Texas America250* Traveling Exhibit

You should have five cases, each containing a vinyl pop-up banner. They are labeled 1 to 5.

1. Unpack a banner. Each case contains one pop-up banner with two supporting pole pieces.

2. Connect the pole pieces by inserting the top one (with plastic fastener) into the bottom one.
3. Place the banner on the floor and insert the pole into the base.

4. Attach the top of the pole to the top of the banner by inserting the plastic fastener where it says “insert.” You can lengthen the pole by extending it and then turning the base pole to the right to tighten. Adjust the height of the banner to make sure the TSLAC logo shows at the bottom.

5. When set up, your banner should look like this:

6. After every panel is set up, the exhibit should look like this. From left to right: (1) Texas America250, (2) Mapping Texas, (3) Republic of Texas, (4) Statehood, (5) Modern Texas:
