EBSCO Resources:

Additional Websites:
★ “A Brief History of the East Texas Oil Field”:
   http://www.easttexasoilmuseum.com/Pages/history.html

Use the above resources to record information on the concept map on the next page.
Think about the following when using the primary sources above:
★ What message is the source trying to communicate?
★ Who is the intended audience for this source?
★ What parts of the source informs you about the topic of the lesson?
★ Which sources support or refute your original thoughts about the topic?
Step 3 – Create

Students can work individually or with partners to create a concept map that organizes the information they learned about Texas. Here are some suggested topics that could be included:

- **Technology Link** – Students may use graphic organizer software, such as Inspiration, or draw a table in a word processor program.

**Allow students to share their information with another group or as a whole class.**

| Arguments to Support Martial Law in Texas in 1931 | Arguments to Oppose Martial Law in Texas in 1931 |
Step 4 – Discuss

Students may choose one of the following projects to complete:

★ Write a Letter to Governor Sterling. In your letter, be sure to state whether you support or oppose the decision to declare martial law. Also, state how you think it will impact the oil war that was happening in Texas at the time.

★ Draw a political cartoon to demonstrate whether you support or oppose the decision to declare martial law in Texas in 1931. Then design a webpage that houses your political cartoon. The cartoon and webpage should include a drawing, text or discussion about how martial law impacted East Texas.

◆ Technology Link - Students can use Microsoft Word or Publisher to develop their products. Use the EBSCO image collection to help you find images of Texas. Students can use an online comic creator, such as http://www.toondoo.com or http://www.makebeliefscomix.com to create the cartoon.

Step 5 – Reflect

Allow students to present their projects to the rest of the class. Use the following suggested rubric to assess the students’ work. Make sure that the students are familiar with the rubric before they begin creating their project. They should refer to the rubric repeatedly to monitor their progress in creating their project.

◆ Technology Link: You can also create your own rubric with your students at http://rubistar.4teachers.org/index.php.
