

TEXAS PUBLIC LIBRARIES ANNUAL REPORT FOR LOCAL FISCAL YEAR 2021

This report is due to the Texas State Library and Archives Commission by April 30, 2022. We strongly urge libraries to report no later than March 31, 2022, to allow staff enough time to process all reports.

The Texas State Library and Archives Commission participates in a national public library data collection system. The purpose of this system is to ensure the collection of comparable data in all states. The data is used for the creation of a composite report on the public libraries of the United States and for state-to-state comparisons by the Institute of Museum and Library Services (IMLS). It is seen and used by researchers as well as policymakers at all levels of government. This report is also used to accredit Texas public libraries and some data elements are used for that purpose. Accreditation-related questions are marked within the questionnaire (◆).

Definitions are important to ensure comparability of data from different libraries and states. Please refer to the definitions as this survey is completed.

Please do not leave any items blank. Estimates are important if exact data are not available.

All questions relate to the library's local fiscal year 2021: the year that ended in calendar year 2021 and included January 1, 2021. If there was a change in the fiscal year, please contact LDN staff to update that information. All information must be entered into **Bibliostat Collect**, the online data collection portal at <https://collectconnect.baker-taylor.com/login.aspx>.

Electronic Material Counts

For purposes of this survey, units are defined as “units of acquisition or purchase”. The “unit” is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

- Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired equivalent to purchasing multiple copies of a single title. For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 “unit”; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 “units”. For smaller libraries, if volume data are not available, the number of titles may be counted.
- Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 “units”.

6.8 Electronic Books (Ebooks)

E-books are loaned to users on portable devices e-book readers or by transmitting the contents to the user’s personal computer for a limited time.

Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of electronic units, including duplicates at the administrative entity level; do not duplicate unit counts for each branch.

E-books packaged together as a unit, such as multiple titles on a single e-book reader, and checked out as a unit are counted as one unit. Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Audio-Downloadable Units may be loaned to users on portable devices or by transmitting the contents to the user’s personal computer for a limited time. Include Audio-downloadable units held locally and remote Audio-downloadable units for which permanent or temporary access rights have been acquired.

Report all items to which your patrons have access, whether through the library or a consortium. Do not include TexShare holdings.

Do not include materials from E-Read Texas/SimplyE.

6.10 Video Materials — Downloadable Units

These are downloadable electronic files on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device. Video-Downloadable Units may be loaned to users on portable devices or by transmitting the contents to the user’s personal computer for a limited time. Include Video-Downloadable Units held locally and remote Video-Downloadable Units for which permanent or temporary access rights have been acquired.

Report all items to which your patrons have access, whether through the library or a consortium.

Electronic Collections/Databases

Report the number of electronic collections. An electronic collection is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts, photographs, music, video, etc.) with a common user interface and software for the retrieval of the data. An electronic collection may be organized, curated, and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the Web.

Electronic Collections do not have a circulation period and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library’s catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library.

Note: The data or records are usually collected with a particular intent and relate to a defined type.

Report the number of electronic collections/databases acquired through curation, payment or formal agreement, by source of access. Include electronic serial subscriptions in this section.

6.11 Electronic Collections/Databases

Report electronic collections/databases made available through purchase by the library or other local consortium as **Local**; Report databases obtained through cooperative agreements or consortia within state or region as **Consortium**. Do not count TexShare databases.

Do not count membership in a consortium here.

An accredited library must have one item per capita, with a minimum of 7,500 items, or have expended fifteen percent of its operating budget on collection materials.

SECTION 7: LOCAL LIBRARY SERVICES

Please do not leave any items blank. Enter “0” if the appropriate entry for an item is zero or “none” and enter “N/A” in the Notes field if an item does not apply to your library. If an exact figure is not available for a particular item, but it is known that the amount is greater than zero, enter an estimate of the amount, and add an explanation in the Notes field. If you need to estimate, please use a standard methodology for doing so. If you have questions, please contact LDN staff at accreditation@tsl.texas.gov.

◆ **7.0 Long-Range Plan**

Yes

No

Report whether or not the library is operating with a long-range plan in place. The library’s governing board shall approve this plan. An accredited library must have a long-range plan that has been reviewed and updated at least every five years and include a collection development element and a technology element.

Service Measures			
7.1 Number of Reference Transactions			
<p>Reference transactions do not include formal instruction or exchanges that provide assistance with locations, schedules, equipment, supplies, or policy statements. Please note the following:</p> <ul style="list-style-type: none"> • A reference transaction includes information and referral service, unscheduled individual instruction, and assistance in using information sources (including websites and computer-assisted instruction). • Count Readers Advisory questions as reference transactions. • Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library’s own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library. • When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again. • If a contact includes both reference and directional services, it should be reported as one reference transaction. • Duration should not be an element in determining whether a transaction is a reference transaction. • Do not include transactions that include only a directional service, such as instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, “Where is the reference librarian? Where is Susan Smith? Where is the rest room? Where are the 600s? Can you help me make a photocopy?” 			
7.1a	Regarding the number of reference transactions, is this an annual count or an annual estimate?	Not Tracked	Count
<p>Estimate</p> <p>If an annual count of reference transactions is unavailable, count reference transactions during a typical week or weeks, and multiply the count to represent an annual estimate.</p> <p>A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours.</p> <p>Example: If there are four weeks sampled, multiply the totals for those four weeks by 13 to get an estimate for the full year. If the sample is done twice a year (one week at each time, two weeks total) multiply the count by 26 to get the estimated annual count.</p>			
7.2 Number of Library Visits		Frequently referred to as the gate count, this is the number of persons entering the library facility for any purpose during the year.	
7.2a	Regarding the number of library visits, is this an annual count or an annual estimate?	Not Tracked	Count
<p>Estimate</p> <p>If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week, multiplying the count by 52. A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).</p> <p>Example: If there are four weeks sampled, multiply the totals for those four weeks by 13 to get an estimate for the full year. If the sample is done twice a year (one week at each time, two weeks total) multiply the count by 26 to get the estimated annual count.</p>			
7.3 Registered Users			
<p>A registered user is a library user who has applied for and received an identification number or card from the public library that has established conditions under which the user may borrow library materials and gain access to other library resources. Files should have been purged within the past three (3) years.</p>			

<p>7.4 Circulation of Children’s Materials — Physical formats</p>	
<p>Report the total annual circulation, including renewals, of all library materials in physical formats marked as children’s, whether borrowed by a juvenile, young adult, or adult. This is the act of lending for use outside the library. This includes charging out checking out and renewals, each of which is reported as a circulation transaction. This includes books, physical audiobooks, physical videos (VHS or DVD), and other physical materials.</p>	
<p>The National Center for Education Statistics NCES: Children and Young Adults Defined [<i>Services and Resources for Children and Young Adults in Public Libraries</i> , August 1995, NCES 95357] defines children as persons age 11 and under.</p>	
<p>Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library. Do not include digital formats.</p>	
<p>7.5 Circulation of Children’s Materials — Digital Formats</p>	<p>Downloadable Materials</p>
<p>Report the total annual circulation/downloads including renewals of all downloadable electronic materials, marked as children’s, whether borrowed by a juvenile, young adult, or adult, including renewals. Electronic Materials are materials that are distributed digitally and can be accessed via a computer, the Internet, or a portable device such as an e-book reader. Types of electronic materials include e-books and downloadable electronic video and audio files. Electronic materials packaged together as a unit and checked out as a unit are counted as one unit. Include circulation only for items that require a user authentication, and have a limited period of use.</p>	
<p>7.6 Circulation Other than Children's — Physical formats</p>	
<p>Report the total annual circulation, including renewals, of all library materials in physical formats, excluding those marked as children’s, whether borrowed by a juvenile, young adult, or adult. This is the act of lending for use outside the library. This includes charging out checking out and renewals, each of which is reported as a circulation transaction. This includes books, physical audiobooks, physical videos (VHS or DVD), and other physical materials. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.</p>	
<p>Do not include digital formats. Include Non-Traditional Physical Items in question 7.9.</p>	
<p>7.7 Circulation Other than Children's — Digital Formats</p>	<p>Downloadable Materials</p>
<p>Report the total annual circulation/downloads including renewals of all downloadable electronic materials, excluding those marked as children’s. Electronic Materials are materials that are distributed digitally and can be accessed via a computer, the Internet, or a portable device such as an e-book reader. Types of electronic materials include e-books and downloadable electronic video and audio files. Electronic Materials packaged together as a unit and checked out as a unit are counted as one unit. Include circulation only for items that require a user authentication, and have a limited period of use.</p>	
<p>Do not include Children’s Digital Circulation, reported in question 7.3; Do not include materials from E-Read Texas/SimplyE.</p>	
<p>7.8 Total Circulation</p>	<p>Sum of 7.4, 7.5, 7.6, 7.7</p>
<p>7.9 Circulation of Other Physical Items</p>	
<p>Circulation of all physical items other than print books(6.3), physical audio units (6.4), physical video units(6.5), and serials, including renewals. These are materials in a fixed, physical format available for use outside the library. These can include a variety of items types, such as wi-fi hotspots, sewing machines, cake pans, tools, telescopes, board games, video games, etc.</p>	

7.10 Successful Retrieval of Electronic Information

Report the number of full-content units or descriptive records examined, downloaded, or otherwise supplied to user, from online library resources that require user authentication but do not have a circulation period.

Do not include the usage from TexShare databases. Report usage from locally-licensed electronic collections, or collections/databases acquired through local or regional consortial agreements.

Examining documents is defined as having the full text of a digital document or electronic resource downloaded or fully displayed. Some electronic services do not require downloading as simply viewing documents is normally sufficient for user needs. Include use both inside and outside the library. Do not include use of the website or online catalog (OPAC).

Programs and Program Attendance

Changes for reporting year 2021: Library programs are referred to as live (synchronous) program sessions or recorded (asynchronous) program presentations. Multiple format options, as well as expanded age ranges are being tracked. Report in-person on-site programs and in-person off-site programs separately, as well as live, virtual programs and recorded (asynchronous) programs. See below for definitions of what constitutes a program.

Each program session should only be counted in one age category based on its primary target audience. If there is no age group highlighted, then report the session(s) under "General Interest" (7.21 - 7.22).

Each program session should only be counted once, regardless of the number of formats in which it is presented. For example, a program session that has both in-person and virtual attendance options should be counted as a single program session.

If programs are offered as a series, count each program session in the series as one event. For example, a film series offered once a week for eight weeks should be counted as eight program sessions.

Count recordings (asynchronous) program presentations at the administrative entity level; do not duplicate numbers at each branch. Include recordings of synchronous program sessions that were available for viewing after the session ended.

For program presentations that are recordings of live (synchronous) virtual program sessions, exclude live (synchronous) attendance; these should be reported under the appropriate age and format within the live (synchronous) program counts.

Live and Virtual Events: Synchronous Programming

Early Childhood Synchronous (Live) Programming targeting ages birth to 5 years

A program session targeted at children ages 0-5 is any planned event for which the primary audience is infants, toddlers, or preschool-age children. Examples of these types of program sessions include, but are not limited to, story hours, every child ready to read programs, musical or sing-along events, and puppet shows. Include program sessions aimed at children ages 0-5 even if adult caregivers also attend. Each program session should only be counted in one age category based on its primary target audience.

Count all children's programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include children's programs sponsored by other groups that use library facilities. If children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for children delivered on a one-to-one basis, rather than to a group.

Student-Age Synchronous (Live) Programming targeting 6 to 11 years

The National Center for Education Statistics NCES: Children and Young Adults Defined [*Services and Resources for Children and Young Adults in Public Libraries*, August 1995, NCES 95357] defines children as persons age 11 and under.

A program session targeted at children ages 6-11 is any planned event for which the primary audience is elementary-school-age children. Examples of these types of program sessions include, but are not limited to, story hours, science events, crafting classes, and summer reading events. Include program sessions aimed at children ages 6-11 even if adult caregivers also attend with the children. Each program session should only be counted in one age category based on its primary target audience. Count all children's programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include children's programs sponsored by other groups that use library facilities. If children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for children delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

Young Adult Synchronous (Live) Programming targeting ages 12 to 18 years

The Young Adult Services Association (YALSA) defines young adults as ages 12 through 18.

A young adult program session is any planned event for which the primary audience is young adults ages 12 to 18 years. Examples of these types of program sessions include, but are not limited to, book clubs, college prep programs, teen tech or gaming clubs, and summer reading events. Each program session should only be counted in one age category based on its primary target audience.

Report all young adult programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include young adult programs sponsored by other groups that use the library facilities.

If young adult programs are offered as a series, count each program in the series. Example: a book club offered every two weeks, 24 weeks a year, should be counted as 24 programs.

Exclude library activities for young adults delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

Adult Synchronous (Live) Programming targeting ages 19+ years

An adult program session is any planned event for which the primary audience is adults age 19 or older. Examples of these types of program sessions include, but are not limited to, book discussions, citizenship classes, and lectures. Each program session should only be counted in one age category based on its primary target audience.

Report all adult programs, whether held on- or off-site that are sponsored or co-sponsored by the library. Do not include adult programs sponsored by other groups that use the library facilities. If adult programs are offered as a series, count each program in the series. Example: a computer skills class offered once a week for 10 weeks should be counted as 10 programs. Exclude library activities for adults delivered on a one-to-one basis, rather than to a group, such as one-to-one resume assistance and services to homebound.

Programs of General Interest (no targeted age group)

A general interest program session is any planned event that is appropriate for any age group or multiple age groups. Include all-age, all-library, family, and intergenerational program sessions. Examples of these types of program sessions include, but are not limited to, family game nights, holiday events, storytelling programs, or chess clubs. Include all programs here that do not fit into the other age category elements. Each program session should only be counted in one age category based on its primary target audience; do not include program sessions here that have already been counted in earlier age category elements. Avoid including program sessions that are targeted at more than one non-adult age category (and are not targeted at adults); these should be counted in the child or young adult age category that best represents the target audience.

Report all adult programs, whether held on- or off-site that are sponsored or co-sponsored by the library. Do not include adult programs sponsored by other groups that use the library facilities. If adult programs are offered as a series, count each program in the series. Example: a computer skills class offered once a week for 10 weeks should be counted as 10 programs. Exclude library activities for adults delivered on a one-to-one basis, rather than to a group, such as one-to-one resume assistance and services to homebound.

Recorded (Asynchronous) Programs Total

7.23 An asynchronous program presentation is any recording of program content that cannot be viewed live as it unfolds (i.e., on-demand streaming). Only include program presentations posted during the reporting period. Regardless of the number of platforms on which a presentation is posted, count each unique presentation only once.

Number of Recorded Programs

Include program sessions hosted on Facebook Premiere that are not facilitated by a staff member. Count asynchronous program presentations at the administrative entity level; do not duplicate numbers at each branch. Include recordings of synchronous program sessions that were available for asynchronous viewing after the session ended.

7.24 The count of views of asynchronous program presentations for a period of seven (7) days after the presentation was posted, even if that period extends beyond the survey reporting period (or fiscal year). For program presentations made available via Facebook, count unique 1-minute views of each video. For those made available via other platforms, count unique views of each video.

Number of Views at 7-Day Mark

For program presentations that are recordings of synchronous virtual program sessions, exclude synchronous attendance; these should be counted under Synchronous In-Person Onsite Program Attendance (7.24), Synchronous In-Person Offsite Program Attendance (7.25), or Synchronous Virtual Program Attendance (7.27).

SECTION 8: LIBRARY STAFFING AND SALARIES

Include all positions funded in the library’s budget whether those positions are filled or not. Report figures as of the last day of the fiscal year. Report all hours worked for each employee type and report as total hours worked per week.

Report number of hours worked per week, not the number of employees.

◆ 8.1 Professional (MLS) Librarians - Weekly Hours Worked

Librarians with master's degrees from programs of library and information studies accredited by the American Library Association.

Persons reported under this category do paid work that usually requires some professional training and skill in library work that might include mechanical or clerical aspects.

An accredited library with a population assignment greater than 25,001, must have professional librarians on staff.

Report total number of hours all MLS librarians work per week, not as number of persons. Use the employees' normal work schedule to calculate this. Example: 2 MLS librarians each work 40 hours per week. Report 80 hours (40 x 2).

8.2 Other (Non-MLS) Librarians - Weekly Hours Worked

Persons reported under this category do paid work that usually requires some professional training and skill in library work that might include mechanical or clerical aspects.

Report total number of hours all librarians work per week, not as number of persons. Use the employees' normal work schedule to calculate. Example: 2 librarians each work 30 hours per week. Report 60 hours (30 x 2).

8.3 All Other Library Staff - Weekly Hours Worked

Includes all other persons paid by the library budget including plant operation, security, and maintenance staff.

Report total number of hours all other paid staff work per week, not as number of persons. Use the employees' normal work schedule to calculate. Example: 3 paid part-time employees: 1 works 10 hours/week, 1 works 20 hours/week, one works 25 hours/week. Report 55 hours (10+20+25).

SECTION 10: INTERNET AND ELECTRONIC SERVICES

◆ 10.1 Public Internet Access Computer with Printer/Copier	Yes	No
	An accredited library must have a computer with internet access and printing/copying capability for patron use.	

10.2 Number of Public Internet Access Computer Terminals

Report the number of the library's Internet computers [personal computers (PCs), laptops, and tablets], whether purchased, leased, or donated, used by the general public in the library. Do not include computers that connect to the Internet for a dedicated purpose (e.g., to access an OPAC or specific database, or to train the public) or purposes.

10.3 Annual Uses of Public Internet Computer

Report the number of uses of the library's Internet computers [personal computers (PCs), laptops, and tablets], whether purchased, leased, or donated, used by the general public in the library. Do not include computers that connect to the Internet for a dedicated purpose (e.g., to access an OPAC or specific database, or to train the public) or purposes. A typical week or other reliable estimate may be used to determine the annual number. This is for in-library use only.

The number of uses sessions may be counted manually, using registration logs. Count each use session for public internet computers, regardless of the amount of time spent on the computer. A use (session) on the library's public Internet computers three times a week would count as three uses (sessions).

Software can also be used to track the number of uses (sessions) at each public Internet computer. If the data is collected as a weekly figure, multiply that figure by 52 for an annual estimate.

10.3a	Regarding the number of public computer uses, is this an annual count or an annual estimate?	Not Tracked	Count	Estimate
	<p>If an actual count of uses is unavailable, determine an annual estimate by counting uses during a typical week in and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).</p> <p>Example: If there are four weeks sampled, multiply the totals for those four weeks by 13 to get an estimate for the full year. If the sample is done twice a year (one week at each time, two weeks total) multiply the count by 26 to get the estimated annual count.</p>			

10.4 Annual Wi-Fi Sessions

Report the number of wireless sessions provided by the library wireless service annually. Count one session for each time a device connects to the library's wireless network, regardless of the duration of connection. If possible, only count sessions for patron devices and exclude library devices such as routers, access points, printers, and public access computers; otherwise, if patron devices cannot be isolated, report sessions for all devices.

<p>10.4a Regarding the number of wi-fi sessions, is this an annual count or an annual estimate?</p>	No Wi-Fi Available	Not Tracked	Count	Estimate
<p>If an annual count of wireless sessions is unavailable, count wireless sessions during a typical week or weeks using methods like hardware logging or network scanning, and multiply the count to represent an annual estimate. (Do not conduct visual surveys of devices in use as a method to establish a count of a typical week.) A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours.</p>				

<p>10.5 Annual Website Visits</p>		Data Not Collected	No Website
<p>Visits represent the annual number of sessions initiated by all users from inside or outside the library to the library website. The library website consists of all webpages under the library’s domain. A website “visit” or “session” occurs when a user connects to the library's website for any length of time or purpose, regardless of the number of pages or elements viewed. Usage of library social media accounts (e.g., Facebook, Twitter, etc.) should not be reported here A typical week or other reliable estimate may be used to determine the annual amount.</p> <p>This information is generally obtained through specialized software or apps such as Google Analytics. If uncertain how to obtain it, contact LDN staff at accreditation@tsl.texas.gov.</p>			

SECTION 11: LIBRARY HOURS

<p>11.1 Annual Public Service Hours for Central Library</p>	
<p>This is the hours the library was available to your patrons last year at the Central or Main Library facility. Report every hour that the facility was open to the public during all of last year.</p> <p>DO NOT include hours when the facility was physically closed but still offered virtual, WI-Fi or "curbside" services outside the building. This total should be reduced for any hours that the facility was closed to the public (e.g., holidays, weather emergencies, natural disasters, pandemic closures, staff development days, construction, repairs, etc.). Branch hours open per year will be reported in each branch sub-report.</p> <p>NOTE: A facility is considered physically closed when the public cannot access any library buildings or bookmobiles, regardless of staff access.</p>	

<p>11.2 Annual Public Service Weeks for Central Library</p>

Section 2: Request for Waiver

In these very challenging times, the commission is committed to supporting libraries throughout the state and working to ensure that we continue to serve the people of Texas. To prevent hardship to libraries and their communities due to the recent community health situation, the commission has adopted an emergency rule creating a waiver for libraries for certain standards, including, but not limited to, §1.74 (relating to Local Operating Expenditures) and §1.81 (relating to Quantitative Standards for Accreditation of Library).

The emergency waiver provision offers assurance to libraries that they will not necessarily lose accreditation if they fail to meet an accreditation standard due to a situation created by a disaster, emergency, or other extraordinary hardship beyond the library's control.

This request will be reviewed by TSLAC accreditation staff based on emergency rule criteria and sent to the Library Systems Act advisory board for further review as warranted.
