THE VANISHING MAN THE CASE

"One man's image has inspired many songs, stories and poems. Some have even traveled record-breaking distances to visit him. For as long as anyone can remember, people have seen him every night. However, he only shows himself from a distance; when people get close, he disappears."

THE MYSTERY

Who is this man, and what part of him are people able to see?

THE CLUES

- 1) He is surrounded by stars, but he's not an actor.
- 2) Some people think that he has an unlimited supply of green cheese
- 3) He shows himself when it gets dark.
- 4) People first visited his home in 1969.

Wanted for Reading

My dad's a secret agent
He's an undercover spy.
He's the world's best
detective.
He's the perfect private eye.
He's a Pinkerton, a
gumshoe.
He's a snoop and he's a
sleuth.
He's unrivaled at detecting
and uncovering the truth.
He's got eyesight like an
eagle. He's got hearing like a
bat. He can out-smell any
bloodhound
He's as stealthy as a cat. He
can locate nearly anything
with elementary ease.
But no matter how he looks
and looks my dad cant find
his keys.
