Texas, located in the south-central United States, was acquired in 1845 after a decade as the Republic of Texas. It achieved statehood the same year. The economy of Texas was originally focused on agriculture and ranching, with a significant cattle industry by the end of the nineteenth century. The discovery of oil in 1901 profoundly changed the state's economy as the petroleum and petrochemical industries began to dominate in the twentieth century.
- Texaco**

- The Raid on the Branch Davidians at Waco, Texas**
In *World of Criminal Justice, Gale*
The downfall of the Branch Davidians began several weeks prior to February 28, 1993. Federal and state law enforcement agencies gathered evidence that cult members under the leadership of David Koresh were stockpiling weapons.
